# PVAmicro

## Your edge in every wipe

Achieve superior results in less time with our most successful and patented\* coated microfibre cloth. Engineered for professionals who expect more, PVAmicro delivers the highest level of streak-free cleaning that can be achieved with a single step.

### Efficient and easy cleaning.

PVAmicro allows efficient and ergonomic surface cleaning:

- Ideal cloth volume, which makes it easy to rinse and wring, meaning less stress on hands
- Very good gliding properties for less effort when wiping
- Easy to rinse as it holds 40 times less particle residue after rinsing, compared to standard knitted microfibre cloth
- Streak-free wiping with no required after-drying saves time and effort
- Hygienic cleaning by removing minimum of 99.9% of viruses, bacteria, and fungi by using water only

### Value in use solution.

The PVA coating in combination with the microfibre cleaning technology allows superior cleaning results for minimum 300 washes.

This durability with the efficient and ergonomic advantages that help reducing time and user strain make PVAmicro a cost attractive cleaning solution.

**PVAmicro is the premium all-purpose cloth for teams that want to work smarter, move faster, and stay ahead.**

Due to the patented\* coating technology, PVAmicro absorbs high volumes of liquid, releases moisture evenly for efficient coverage, and rinses out dirt with ease.

The result is faster workflows, brilliant streak-free finishes, and consistently high performance on all surfaces.

### Your unfair advantage.

- Extra-fine microfibres for exceptional cleaning performance
- Powerful removal of greasy dirt for shiny results
- Maximum absorbency for faster, more efficient cleaning
- Quick and effortless rinsing
- Even water release for high surface coverage
- Externally certified to physically remove at least 99.9% of viruses, bacteria, and fungi through high-performance microfiber technology

The PVAmicro delivers fast, effective cleaning on any hard or delicate surface, improving workflow efficiency while reducing overall cost. Designed for long-lasting performance, it can be washed and reused again and again.

#### Ideal for cleaning:

- Smooth and delicate surfaces
- Mirrors and chrome
- Hygienic sensitive areas
- Kitchen and restaurants
- Sanitary facilities
- Furniture

#### Cleaning methods:

- Pre-Preparation
- Rinse and wring
- Spray
- Wet or damp

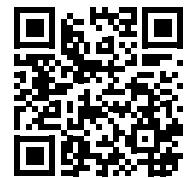

## **CLEAN BETTER. *FASTER.* PVAmicro. Your Unfair Advantage.**

### FHCS Professional – a part of the Freudenberg Group

FHCS Professional is one of the leading international manufacturers of professional cleaning systems. With our brands Vileda Professional, Vermop and Oates we provide innovative cleaning solutions specially tailored to the needs of professional users in various application areas, such as General Building Cleaning, Healthcare, HoReCa and Controlled Environment.
